

AA Meetings Around the State

Despite the shutdown ordered by the governor, AA meetings continued to be held. Almost all of them are being held remotely using the Zoom videoconference platform.

Below are websites listing meetings in the larger metropolitan areas that are being held remotely. All the person has to do is click on a link provided on the websites and they should be taken to the meeting after the Zoom application is automatically downloaded to their computer or smart phone. The person can attend with video, or audio only.

The beauty of online meetings is that someone can log in to any meeting from anywhere as long as they have an internet connection.
